

Job offer

AC2T research GmbH

Mechanical Engineering / Mechatronics Science (m/f/d)

As the **Austrian Competence Centre for Tribology** (www.ac2t.at), we have been developing technical-scientific solutions around the topics of **friction, wear and lubricant** application for about 20 years.

Are you interested in varied tasks in an international research team in the field of tribology?

We are looking for immediate assistance in the construction, operation and maintenance of research infrastructure.

ACTIVITIES

- Design, supervision and assessment of tribological experiments
- Reporting and communication with customers
- Method development on existing machines
- Evaluation and assistance in the design and acquisition of new infrastructure

REQUIREMENTS

- Completed academic training (FH, university) in the field of mechanical engineering or mechatronics
- Ability to work in a team, organisational skills, accuracy and analytical way of thinking
- Ability to work independently in a project environment
- Experience with 3D CAD (SolidWorks) advantageous
- Knowledge of German and English required

OUR OFFER

- Permanent position at the Wiener Neustadt location.
- 3.000,- gross monthly, 40 h/week full time, a possible overpayment is dependent on relevant professional experience and/or qualification.
